

IDENTITY RECOVERY COVERAGE

Now You Can Have Identity Theft Coverage and Personal Help with Identity Recovery.

Identity Theft Costs a Lot More than Money.

When someone uses your personal or financial information to commit fraud or other crimes, you are a victim of identity theft. It's one of America's fastest growing crimes.

The cost of recovering a stolen identity and repairing the damage can reach a thousand dollars or more.

Victims report that the time and emotional toll identity theft and recovery take are the greatest losses. That's particularly true in cases where the thief takes control of your identity and opens one or more fraudulent accounts in your name.

A New Need. A New Coverage.

As one of our customers you deserve access to the best products and services available for today's needs. That's why your homeowners policy can now include Identity Recovery Coverage for a very modest additional premium. Then, if you become a victim, you'll have expense reimbursement and personal help for the recovery process. Here are highlights of this new service and coverage.

Identity Recovery Help Line.

Identity Recovery Counselors are available through our toll-free Help Line to answer your questions and provide loss prevention recommendations. If you are an identity theft victim, they will direct you to further service and coverage.

Experienced Case Managers.

Verified identity theft claimants will be assigned a case manager. Your manager will handle the bulk of the work on your behalf, to help you identify where fraud has occurred, make the right contacts and speed the often complicated recovery process.

Our program uses case managers who are licensed investigators and who are able to take action on your behalf, with your permission, through a limited power of attorney.

Expense Reimbursement.

Identity Recovery Coverage reimburses you for covered expenses incurred to restore your credit history and identity records. Covered expenses include:

- Various legal fees caused by identity theft, including costs for both civil and criminal defense.
- Lost wages as a result of time away from work.
- Costs for child or elder care as a result of time away from home.
- Credit repository reports.
- Fees for reapplying for loans declined due to falsified credit information.
- Postage, phone and shipping fees.
- Notary and filing fees.
- Costs for mental health counseling.
- Costs for other expenses that arise directly from the identity theft.
